30TH March 2021

KRA/HQS/NCB-045: 2020-2021: PROPOSED REFURBISHMENT OF TIMES TOWER DATA CENTER

RE: CLARIFICATION/ADDENDUM "SET 6"

Kenya Revenue Authority wishes to inform prospective bidders of the clarifications highlighted below for the above tender.

S/No	Clarification Required	Response
1	Addendum Set 2 Changed EPRA certificate for company from Class A1 to Class C1, but the requirement for Electrical Supervisor still remained EPRA Class A1. The class issued by EPRA is determined by the qualification of the individual. So should we consider Class C1 also for the Electrical Supervisor under the Key Personnel Section?	The company and personnel are treated separately with the minimum requirement for electrical supervisor being class C1.

The clarification/addendum form part of the bidding document and is binding to the bidder. All other terms and conditions of the tender remain the same. You are therefore required to immediately acknowledge the receipt of this addendum.
