KENYA REVENUE AUTHORITY

ISO 9001:2015 CERTIFIED

CLARIFICATION / ADDENDUM "SET 1"

8ᵀᴴ FEBRUARY, 2021.

To all Prospective bidders,

REF: TENDER NO.KRA/HQS/RFP -030 /2020-2021 – PROVISION OF CONSULTANCY SERVICES FOR PHASE 2 AND 3 OF THE ENTERPRISE DATA WAREHOUSE AND BUSINESS INTELLIGENCE SOLUTION (RE – ADVERTISEMENT).

Kenya Revenue Authority wishes to inform prospective bidders of the clarifications / addendum highlighted below:

	Bidders' Queries	KRA Responses
1.	In Section 8.2 MANDATORY REQUIREMENTS, page nr 22 of the RFP point 10 mentions: "Consultants must provide a written confirmation from Oracle that they are an approved Oracle university partner or education centre. In the case of a consortium or a joint venture, at least one member of the team must meet this requirement." Our Consortium will include an approved Oracle university partner / education center who will also carry the relevant certificate. However, as such organisations in Kenya are fewer than the companies that plan to submit responses to the subject RFP it will be a case of such organisations appearing as partners in more than one consortium/Joint Venture. We would like the contracting Authority to confirm that this will not lead to disqualification of the Joint Ventures/Consortia that collaborate with the same Oracle university partner / education centre to cover this requirement	KRA understands that the scope may necessitate a collaboration of different firms. An Oracle University partner appearing as a partner in more than one consortium/Joint Venture will not lead to the disqualification of the Joint Ventures/Consortia
2.	How many external (third-party) systems we need to connect? How will the access be provided?	All data will be loaded to a staging area from where the bidder will extract it.
3.	What is the frequency of data extraction from external systems?	Daily
4.	Is KRA planning to upgrade the database also to latest version as a part of implementation?	This is not a part of this implementation
5.	What is the current data volume of DW?	4TB
6.	How many Mappings and Workflows currently exist in Informatica and do we need to refactor every one of them?	19 Workflows, 1633 Mappings Yes, all will require refactoring

	Bidders' Queries	KRA Responses
7.	How many numbers of reports and dashboard to be considered as part of OBIEE to OAS upgrade?	50 Bi Publisher reports and 40 dashboards
8.	What is the use case which is to be considered as advanced analytics use case?	This is to be proposed by the bidder
9.	What is the size of existing OBIEE catalog?	21KB
10.	How many users currently exist in current OBIEE?	300
11.	How data will be extracted from following systems? and what is the expected data volume for each dataset? a. iTax b. Simba c. iCMS d. SAP e. Cisco Call Center Manager f. Cargo Tracking System g. ITSM Tool	This will be provided to the winning bidder at the inception workshop
12.	What is the current operating system on which OBIEE is hosted?	Oracle Linux 6
13.	What is the OS preference for OAS?	Oracle Linux 6
14.	Tender closure extension	**The Tender has been extended to 15th February 2021 at 11:00 am.**
15.	**Note:** **Prospective bidders are hereby advised to align their Tender Security to the new tender opening date i.e 9th February, 2021 to be valid upto and including 14th February, 2022**	

The clarification / addendum form part of the bidding document and is binding to the bidder. All other terms and conditions of the tender remain the same. You are therefore required to immediately acknowledge the receipt of this addendum.

Regards,

Benson Kiruja
