KEY REVENUE DRIVERS

DEBT COLLECTION INITIATIVES

- KRA enhanced collection from debt programmes on non-compliant taxpayers, collecting a total of **Shs141.261 billion** in FY 2024/2025. This performance is attributable to follow-ups on demand notices and the debt instalment plans agreed upon with taxpayers.

TAXATION OF THE DIGITAL ECONOMY

- Taxation of the digital economy for the period under review recorded a performance rate of 112% after netting **Sh14.3 billion** which translates to a 32% growth from the **Sh10.8 billion** collected in FY 2023/24.

TAX BASE EXPANSION

- The programme enabled KRA to collect **Sh28.5 billion** in revenue through launch of the Electronic Rental Income Tax System (eRITS), recruitment of landlords under the Monthly Rental Income (MRI) programme through a taxpayer mapping process (Block Management System - BMS) and recruitment of additional taxpayers and provision of additional tax obligations based on their income.

ANTI-CORRUPTION MEASURES

KRA's interventions to combat corruption and seal revenue leakages include implementation of the iWhistle programme, which facilitated collection of Kshs. 6.87 Billion from 821 cases reported anonymously; profiling of tax evaders and review of refunds and debt management processes.

TAX AT SOURCE

Integration of Betting and Gaming Companies into KRA tax system. The integration has given KRA real-time access to 141 companies in the gaming and betting sector. This enabled both Excise Tax on betting services and Betting Tax to surpass the FY 2024/25 target.

DISPUTE RESOLUTION FRAMEWORK

- The framework enhanced revenue collection from Alternative Dispute Resolution (ADR), which facilitated the release of **Sh15.296 billion** for collection from 97 concluded cases. KRA also collected **Sh65.09 billion** through litigation processes. This translates to a performance rate of 195%.
