VAT Mismatched Invoices

Are You Aiding Tax Evasion and Tax Fraud?

Kenya Revenue Authority (KRA) through its iTax platform has details of all business transactions carried out by taxpayers. Validation and matching of taxpayers data has revealed massive inconsistencies relating to VAT input tax deduction.

KRA wishes to inform all taxpayers that a system based control that allows only valid invoices for input tax deduction is in place. We therefore wish to advise all our esteem taxpayers to use valid invoices for input tax deduction in order to avoid unnecessary non compliance risks.

KRA therefore extends an opportunity for amendments of returns where invalid invoices have been used for input tax deduction. Taxpayers are further advised to refer to the guidelines on amendments of returns on **www.kra.go.ke**
